ABOUT ME

From a Boy to a Man, being raised in a marginalized Chakma community currently enrolled at Nantong University as an Undergrad student of Computer Science.
Open to higher studies and research opportunities. My research interests are *Machine learning*, *Artificial Intelligence*, and *Cyber Security*. Besides, I like to travel. I believe traveling gives you a new perspective on everything. You get to know a lot about the different cultures, the cuisines, their history, the language and all the small unique things every place has to offer.
